PART II: Master Circular

1. Trading Parameters

1.1 Pre-open session

The pre-open session is conducted for a duration of 15 minutes starting from 9:00 am to 9:15 am. Call Auction trading mechanism is used to conduct this session.

A. Trading Time

This session is conducted for a duration of 15 minutes starting from 9:00 am to 9:15 am. It consists of Order Entry Period and Order Matching and Trade Confirmation period. Post completion of order matching and trade confirmation there shall be a buffer period to facilitate transition between pre-open and continuous trading session. The details of the same are as follows:

Session	Time	Particulars
Order Entry Period	9:00 am - 9:08 am	Order Addition/Modification/Cancellation Random stoppage between 7th and 8th minute Dissemination of Indicative Price, Cumulative buy & sale quantity & Indicative Index
Order Matching & Trade Confirmation Period	9:08 am - 9.12 am	No Order Addition/Modification/Cancellation Allowed Opening price determination Order matching and trade confirmation
Buffer Period	9:12am - 9:15am	To facilitate transition between pre-open and continuous trading session

B. Client Type at the time of Order Placement

- CLIENT
- OWN

BSE - PUBLIC

C. Eligible Scrips

The pre-open session with call auction trading mechanism is applicable to all scrips in equity segment. Scrips which are eligible for pre-open session are identified as 90 in column no 19 in the scrip.txt file available on Exchange website and on Extranet under COMMON folder.

D. Market Information

Lot Size	Same as Continuous Trading Session
Tick Size	Same as Continuous Trading Session

E. Trading Session

Pre-open session consists of following two sessions:

- Order Entry Period - This period allows order entry, modification and cancellation. Order Entry period is randomly stopped by system between 7th and 8th minute. Both, Limit and Market orders can be entered.
    - Information like following items is disseminated to market at regular intervals during pre-open session:
        - Indicative market opening price,
        - Matchable quantity at the indicative market opening price
        - Indicative values of SENSEX and other BSE indices
        - Total Buy / Sell depth of the order book
        - Percentage change in the indicative market opening price from the previous day's closing price

- Order Matching and Trade Confirmation Period -This period starts immediately at the end of Order Entry period.
    - Order will be matched at a single price which will be the market opening price.
    - The priority of order matching shall be in the below mentioned sequence:
        - Eligible Limit orders are matched with eligible limit orders
        - Unmatched limit orders are matched with market orders
        - Market orders match with market orders
        - During this period, modification and cancellation of orders / trades are not allowed.
    - Trade confirmation details will be disseminated to respective members immediately after matching of trades.

BSE - PUBLIC

F. Price Determination

- The equilibrium price shall be the price at which the maximum volume is executable.
- In case more than one price meets the said criteria, the equilibrium price shall be the price at which there is minimum order imbalance quantity (unmatched order quantity). The absolute value of the minimum order imbalance quantity shall be taken into consideration.
- Further, in case more than one price has same minimum order imbalance quantity, the equilibrium price shall be the price closest to the previous day's closing price. In case the previous day's closing price is the mid-value of a pair of prices which are closest to it, then the previous day's closing price itself shall be taken as the equilibrium price.
- In case of corporate action, previous day's closing price shall be the adjustable closing price or the base price.
- Both limit and market orders reckon for computation of equilibrium price.
- The equilibrium price determined in pre-open session is considered as open price for the day.
- In case of only market orders exist both in the buy and sell side, then order is matched at previous day's close price or adjusted close price / base price. Previous day's close or adjusted close price / base price is the opening price.
- In case of no price is discovered in pre-open session, the price of first trade in the normal market is the open price.

G. Unexecuted Orders

- All unmatched limit orders in the pre-open session will be shifted to the order book of the continuous trading session on price-time priority basis.
- All unmatched market orders will be shifted to the continuous trading session as limit orders priced at the market opening price on time priority basis. In other words, unmatched market orders will be moved to the continuous session as limit orders priced at the opening price, and will retain their original time stamp.
- In case the opening price is not discovered in the preopen session, wherein, there are only market orders, the market orders will be matched at the previous day's closing price. All the unmatched market orders will be shifted to the continuous session as limit orders priced at the previous day's close. The previous day's close shall be the opening price of the stock.
- In case the opening is not discovered and there are no market orders to be matched, then all unmatched market orders (priced at the previous day's close) and limit orders will be shifted to the continuous market following price- time priority. The price of the first trade in the continuous markets will be the opening price of the stock.

BSE - PUBLIC

H. Index circuit filter

In the event the Index breaches its prescribed threshold limit upon calculation of the opening value of SENSEX, a trading halt (market wide circuit breakers) will be triggered as per (SEBI Circular Ref. No. CIR/MRD/DP/25/2013 dated September 3, 2013).

The halt shall be applicable at the start of the continuous trading session. The index breach will not impact the execution and confirmation of trades during the pre-open matching session.

I. Risk Management

All orders received during the order entry period of the pre-open session shall be validated for upfront margins against the available collateral of members on a cumulative quantity basis. Orders will not be accepted in the system if the member does not have adequate collateral. In case of cancellation of orders, the blocked margins will be released immediately during this period.

***Pre-Trade Risk Control - Enhancements to Market price order in Equity segment**

E. Trading Session

Special pre-open session consists of following two sessions:

- Order Entry Period.This period allows order entry, modification and cancellation. Order Entry period is randomly stopped by system between 35th and 45th minute. Only Limit orders can be entered.
    - Information like following items is disseminated to market at regular intervals during special pre-open session:
        - Indicative market opening price,
        - Matchable quantity at the indicative market opening price
        - Total Buy / Sell depth of the order book
        - Percentage change in the indicative market opening price

- Order Matching and Trade Confirmation Period. This period starts immediately at the end of Order Entry period.
    - Order will be matched at a single price which will be the market opening price.

BSE - PUBLIC

- Eligible buy limit orders will be matched with eligible sell limit orders
    - Eligible Limit orders are matched with eligible limit orders
    - Unmatched limit orders are matched with market orders
    - Market orders match with market orders
    - During this period, modification and cancellation of orders / trades are not allowed.
- Trade confirmation details will be disseminated to respective members immediately after matching of trades.

F. Price Determination

- The equilibrium price shall be the price at which the maximum volume is executable.
- In case more than one price meets the said criteria, the equilibrium price shall be the price at which there is minimum order imbalance quantity (unmatched order quantity). The absolute value of the minimum order imbalance quantity shall be taken into consideration.
- Further, in case more than one price has same minimum order imbalance quantity, the equilibrium price shall be the price closest to the previous day's closing price. In case the previous day's closing price is the mid-value of a pair of prices which are closest to it, then the previous day's closing price itself shall be taken as the equilibrium price.
- The equilibrium price determined in pre-open session is considered as open price for the day.

G. Unexecuted Orders

IPO Securities:

- All unmatched limit orders in the special pre-open session will be shifted to the order book of the continuous trading session at their limit price on price-time priority basis, irrespective of whether the equilibrium price has been discovered or not.
- In case the limit price of any unmatched order that is shifted to the continuous trading session is beyond the applicable price band for that Security, then such outstanding orders shall be returned to the respective member.
- Unmatched orders entered with IOC will get rejected.

BSE - PUBLIC

Re-listed Securities:

- Equilibrium price discovered: All unmatched orders entered during the special pre-open session period shall be moved to the continuous trading session at their limit price.
- Equilibrium price NOT discovered: All orders will be CANCELLED by the system at the end of the special pre-open session.

H. Index circuit filter

Following action shall be initiated in case of market halt is triggered during Special Pre Open Session (SPOS):

- If triggered during order entry period for a new listing of a security (IPO), relisting of a security, that session shall be closed and all orders shall be cancelled. A fresh SPOS shall be conducted on the same day for new security (IPO) and relisting of a security. This session shall be for duration of 60 minutes consisting of 45 minutes for order entry period, 10 minutes for order matching and trade confirmation period and 5 minutes for buffer period. The session shall close randomly between the 35th and 45th minute of the order entry period.
- If triggered during order matching period for a new listing of a security (IPO), relisting of a security, the matching process shall be completed.

I. Risk Management

- In respect of orders in special pre-open session for IPO scrips and re-listed scrips margin is validated and blocked at the order level itself.
- For IPO scrips with issue size up to Rs 250 crs and re-listed scrips, orders received during special pre-open session shall be validated for upfront margins against the available collateral at 100% of order value prior to acceptance of such orders.
- For IPO scrips with issue size greater than Rs 250 crs, orders received during special pre-open session shall be validated for upfront margins against the available collateral at the applicable margin rate, prior to acceptance of such orders.
- The existing risk management framework is applicable for trades resulting from special pre-open session.

Dissemination of Cancelled order details: Additionally, to enhance transparency in the special pre-open call auction session, details of number and quantity of cancelled orders shall be disseminated to all market participants on real time basis during the order entry period of the special pre-open call auction session as follows –

- On the Exchange website
  Weblink: https://www.bseindia.com/markets/Equity/SPOScancelledorder.aspx
  User can also login to BSE website and select Markets Tab -Equity -Live Reports-SPOS Cancelled Order details to avail the information.

BSE - PUBLIC

- BOLT Pro TWS terminal (details shall be provided via a separate circular)

- Market data broadcast: Trading members and third-party trading application vendors are requested to note that a separate market data broadcast message has been introduced for providing the cancelled order details in NFCAST & EMDI/MDI market data broadcast streams. New version of NFCAST and EMDI/MDI market data API documents have been provided to the members and trading application vendors. Further please refer to Exchange notice number 20240911-14

Introduction of a special call auction mechanism for price discovery of scrips of listed Investment Companies (ICs) and listed Investment Holding Companies (IHCs).

This is with reference to SEBI Circular no. SEBI/HO/MRD/MRD-PoD-3/P/CIR/2024/86 dated June 20, 2024 and Exchange circular no. 20240701-70 dated July 01, 2024 regarding the **Introduction of a** special call auction mechanism for price discovery of scrips of listed Investment Companies (ICs) and listed Investment Holding Companies (IHCs) and Exchange circular no. 20241014-48 dated October 14, 2024 regarding List of Investment Companies (ICs) and Investment Holding Companies (IHCs) eligible for Special Call-Auctions and Exchange circular no. 20240911-14 dated September 11, 2024 regarding modification in duration for Call Auction in pre-open session for Initial Public Offer (IPO) and Relisted scrips.

Trading members are requested to take note of the following with respect to conducting the special call auction mechanism for price discovery of scrips of listed Investment Companies (ICs) and listed Investment Holding Companies (IHCs) –

- The price discovery session shall also be conducted for the eligible list of securities provided in the circular no. 20241014-48 dated October 14, 2024. Subsequent list of eligible securities shall be published via separate circular from time to time. A new indicator has been introduced in scrip master file to identify these eligible securities. Please refer to Exchange circular no. 20241015-16 dated October 15, 2024.

- All provisions and operational details under Special preopen session (SPOS) shall also be applicable to Investment Companies (ICs) and Investment Holding Companies (IHCs).

- Additional criteria for determining equilibrium/opening price for eligible IC & IHC securities shall be applicable as follows –
  - The special call auction session shall be treated as successful if price discovery is based on orders from at least 5 Permanent Account Number (PAN) based unique buyers and sellers i.e. at least 5 unique PAN on each side.

BSE - PUBLIC

- If the security is listed on multiple stock exchanges and call auction session is successful on any one stock exchange, the price discovered at that stock exchange will form the base for normal market trading at the other stock exchange.
- If call auction is not a success on day 1, then such session shall again be conducted on subsequent trading days till such time the price is discovered at any of the Exchanges.In case of unsuccessful price discovery due to the above-mentioned additional criteria not being met, all the outstanding orders shall be cancelled by the exchange at the end of session including available matchable orders where applicable.

Trading members and third-party trading application vendors are requested to note that a new version of ETI API, version 1.6.11, has been released for a new error code for cancelled orders due to PAN criteria not met.

1.4 Settlement

All transactions in all groups of securities in the Equity segment and Fixed Income securities listed on the Exchange are required to be settled based on settlement type of the respective scrip i.e Rolling settlement and trade for trade settlement.

As a measure of risk containment, Exchange shifts securities to Trade for Trade settlement. Trading in such scrips shall be cleared and settled on a trade for trade basis and there shall be no netting of transactions.

Scrips belonging to T, MT,TS,IT, Z, R, ZP, P,Y,ZY and XT groups and block deal trades are settled on a trade for trade basis.

1.5 Odd Lot Trading

Investors holding demat securities in quantity less than the market lot of that security are required to sell them as "Odd Lots". This facility offers an exit route to such investors and also provides them an opportunity to consolidate their securities into market lots.

1.6 Matching logic for Revealed Quantity Orders

Trading members of the Exchange are aware that a trader can place different types of orders using BOLT TWS/PRO or through Third Party In-house or vendor Trading application. One such order type is orders with Revealed Quantity condition which allows the trader to place a buy or a sell order by revealing only a small part of total order quantity at a time.

Salient features of the changed matching logic of orders with revealed quantity-

- An active order with revealed quantity may trade as much quantity upto its total order quantity when matched with an opposite-side passive order. In other words, it could get completely executed through a single trade regardless of the revealed quantity specified.
- If an active order with revealed quantity does not get traded immediately or gets partially traded, it shall be added to the order book as per price-time priority as a passive order.
- A passive order with revealed quantity shall trade only in units of revealed quantity or less, depending on the opposite-side active order quantity.
- Every time the revealed quantity portion gets fully traded, it will replenish the revealed quantity portion and as a result, the order shall lose its time priority. It shall be re-time stamped and placed in the order book as per prevailing price-time priority.
- After getting traded, finally, if the remaining order quantity is less than or equal to the original revealed quantity, then entire remaining quantity shall be revealed for potential matching.

1.7 Block Deal

SEBI circular CIR/MRD/DP/118/2017 dated October 26, 2017 and Exchange circular nos. 20171030-5 dated October 30, 2017 and 20171229-4 dated December 29, 2017 regarding review of block deal window mechanism in the Equity segment. **Guidelines of the revised block deal mechanism are as follows –**

Timings:

Block deal windows shall be available on all trading days in Equity segment as follows -

BSE - PUBLIC

a. Morning Block Deal Window - This window shall operate between 08:45 AM to 09:00 AM.

b. Afternoon Block Deal Window - This window shall operate between 02:05 PM to 2:20 PM.

Block Reference Price (BRP):

The reference price for execution of block deals will be provided in the market picture of the security as 'BRP'. The orders placed shall be within ±1% of the applicable reference price in the respective windows.

- BRP for execution of block deals in the morning block deal window shall be the previous day closing price or adjusted previous close price (on account of corporate action) of the security. If security is not traded on the previous day then the latest available close price shall be considered.
- BRP for afternoon block deal window shall be the volume weighted average market price (VWAP) of the trades executed in the stock in the Equity segment between 01:45 PM to 02:00 PM. If no trades are executed between 01:45 PM to 02:00 PM, then VWAP of the trades executed between 9:00AM to 1:45PM in that security shall be considered as the block reference price. If no trades executed from 9:00AM to 1:45PM then previous close price shall be considered as block reference price.

The minimum order size for execution of trades in the block deal window shall be Rs.10 Crore. There shall be no minimum quantity check applicable.

The Exchanges shall disseminate the information of Block Deal such as the name of the Security, name of the client, quantity of shares brought/sold, traded price, etc to the general public on the same day, after the market hours.

Refer to latest Exchange notice no. 20170428-6 dated April 28 2017 and 20211124-35 for Modalities for Bulk and Block deal reporting.

1.8 Trade Modification

While executing the trade for the said client, the broker enters the unique client code allotted to the client. However, there are instances wherein the wrong code is entered by the broker while executing the trade. For trading member, trade modification functionality is available in Exchange web based system called as RTRMS (Real-Time Risk Management) ZT system. In RTRMS-ZT system facility has been provided to Trading member to modify client code for Equity segment trade under option Trade Modification ->Modify Trade (Equity) as per time specified by Exchange.

Trade Modification time from 9:15 AM till 4:00 PM for T+1 settlement trades and from 9:15 AM till 1:45 PM for T+0 settlement trades

Trade modification rights now can be assigned to multiple sub users (upto 3 sub-users) in ZTRTRMS system. Using this, members can now assign a set of trader IDs (which are used for trading on the Exchange trading system) to a sub-user. In this way, all trader IDs of a member can be distributed across 3 sub-users within ZT-RTRMS system for carrying out trade modification activity. Each such sub-user can then carry out trade modification activity for trades done through the trader IDs assigned to it.

Further regarding rule of trade modification & other details, kindly refer circular number 20250109-8 dated January 09,2025 regarding modification of Client Codes & Master Circular – Broker Supervision Department.

For Further details refer to

Modification of Client Codes (All Segments) – enhancement in RTRMS (Real Time Risk Management System) and BEFS (BSE Electronic Filing System) modules

1.9 Close Price computation

Close price computation in equity segment is based on the weighted average price of the trades done in last half an hour.

In case if there are no trades done for a day, then last traded price (LTP) will be considered. In case there is no last traded price available then previous close will be considered.

BSE - PUBLIC

1.10 Post Close Market

In accordance with guidelines issued vide SEBI letter SMD/Policy/9916/2003 dated May 20, 2003, Exchange provides a Trading Session after normal market hours in Equity Segment. *(Not applicable for T+0 settlement type)*

Salient features of Post-closing session are as follows:

- Timings - 3.40 pm to 4.00 pm
- Type of Orders allowed – Limit (at closing price) and Market Order.
- Order Modification is allowed
- Order Matching - All the orders are matched at the closing price of a security for that day.
- Securities Allowed – Securities in which at least one trade has taken place in Normal Market for that day.
- Outstanding orders in the continuous trading session where order price is better than close price will continue to be displayed in the Outstanding Order screen. These orders can be modified / cancelled in the Post -closing session.

1.11 Settlement Auction Market

Auctions are initiated by the Exchange for settlement related reasons like Shortages. Trading members can participate in Exchange initiated auction. A trading member who has failed to deliver a particular scrip on the pay-in day is not allowed to offer the same in auction. The details of auction market are as follows:

Session	**Time**
Auction offer entry	02.00 p.m. to 02.45 p.m.
Auction Matching	02.45 p.m. to 03.00 p.m.
Delivery Statement and report of accepted auction offers	03.00 p.m. to 03.30 p.m.
Money Statement & final reports	03.55 p.m. to 05.30 p.m.

BSE - PUBLIC

1.12 Retail Debt Market (RDM)

The Retail Debt Market Module of BSE aims at providing an efficient and reliable trading system for GSEC. The key features of the system are:

- Trading: by electronic order matching based on price-time priority with the continuous trading sessions from 9.15 a.m. to 3.30 p.m. as is operational in the Equities Segment. Retail Trading in G-secs is on a Rolling Settlements basis with a T+1 Cycle.
- The trades executed throughout the continuous trading sessions are netted out at the end of the trading hours through a process of multilateral netting. The transactions are netted out member-wise and then security-wise so as to determine the net settlement and payment obligations of the members.
- The Delivery obligations and the payment orders in respect of these members are generated by the clearing corporations. These statements indicate the pay-in and payout positions of the Members for securities and funds who then give the necessary instructions to their Clearing Banks and depositories. The entire risk management and the clearing and settlement activities for the trades executed in the Retail Debt Market System are undertaken by Clearing Corporations.
- Holding and Transfer of G-Secs: The G-secs for retail trading through BSE can be held by investors in the same Demat account as is used for equity at the Depositories. (NSDL and CDSL)

1.13 Offer for sale (OFS)

In accordance with SEBI Circular no CIR/MRD/DP/18/2012 dated July 18, 2012 and further Exchange Notices No. 20210322-21 dated March 22, 2021, Notice no. 20160218-33 dated February 18th, 2016, Notices No 20200701 – 27 dated July 1st, 2020, Notice No.20230127-14 dated January 27th, 2023 and Exchange Notice No. 20240701-47 dated July 1st, 2024 the Exchange has made the necessary changes/ development in the OFS module and has enabled Offer for Sale (Segment) to all Trading Members of the Exchange on iBBS (Internet Based Book Building System) Platform of the Exchange. All Trading Members are allowed to access this module. No separate registration or payment of any charges is required currently to access the OFS segment on iBBS.

This separate window shall facilitate Seller(s) i.e. Promoters/Promoter Group entities/ Non-Promoter Shareholder to dilute/offload their holding in listed companies in a transparent manner with wider participation.

1.14 Offer to Buy (OTB)

In line with SEBI circular no. CIR/CFD/POLICYCELL/1/2015 dated April 13, 2015 regarding mechanism for acquisition of shares through Stock Exchange pursuant to Tender-Offers under Takeovers, Buy Back and Delisting exchange has made available through the Acquisition Window (Offer to Buy - OTB) on iBBS (Internet Based Book Building) platform is available.

Some of the provisions of the Acquisition Window (Offer to Buy - OTB) are:

1. The facility for acquisition of shares through Stock Exchange mechanism pursuant to offer shall be available on the Stock Exchange in the form of a separate window (the “Acquisition Window”).
2. The acquirer or company may choose to use the Acquisition Window provided by more than one Stock Exchange having nationwide trading terminal and in that case, one of the exchanges shall be chosen as the "Designated Stock Exchange"(DSE).
3. In case of competing offers under Regulation 20 of the Takeover Regulations, each acquirer will apply for and use separate Acquisition Windows during the tendering period. If one acquirer chooses to use acquisition window of one Stock Exchange having nationwide trading terminal, it would not be mandatory for the other acquirer to choose the same Stock Exchange.
4. The acquirer/ company shall appoint a stock broker registered with the SEBI for the offer. Such broker may also undertake transactions on behalf of sellers.

1.18 Call Auction session for illiquid scrips

In accordance with the guidelines of SEBI circular no. CIR/MRD/DP/6/2013 dated February 14, 2013 and Circular No. CIR/MRD/DP/38 /2013 dated December 19, 2013, Exchange conducts Periodic Call Auction for illiquid scrips on daily basis.

A. Trading Time:

Periodic call auction sessions of one hour each shall be conducted daily throughout the trading hours with the first session starting at 9:30 am and last session ending at 3.30 pm as per the details given below. Each session shall close with system driven random closure during the last one minute of order entry i.e. between the 44th and 45th minute.

PCAS Session No.	Start Time	End Time
PCAS Session 1	9:30 am	10:30 am
PCAS Session 2	10:30 am	11:30 am
PCAS Session 3	11:30 am	12:30 pm
PCAS Session 4	12:30 pm	1:30 pm
PCAS Session 5	1:30 pm	2:30 pm
PCAS Session 6	2:30 pm	3:30 pm

B. Scrip Criteria:

A scrip which trades in the normal market and is not shifted to trade for trade settlement, shall be classified as illiquid on Exchange if the following conditions are met:

- Average daily turnover of less than Rs.2 lakhs calculated for previous two quarters **And**
- The Security is classified as illiquid at all Exchanges where it is traded

Of the Securities identified as per above criteria, Securities which satisfy any of the following conditions shall be excluded:

- Securities with average market capitalization more than Rs.10Cr.
- Securities where company is paying dividend in at least two out of last three years.
- Securities where company is profitable in at least 2 out of last 3 years, and not more than 20% of promoter's shareholding is pledged in the latest quarter and book value is 3 times or more than the face value.

C. Entry & Exit of Scrips:

At the beginning of every quarter, securities shall be identified as illiquid as per the above criteria and moved to periodic call auction.

BSE - PUBLIC

Scrips shall move from periodic call auction mechanism to normal trading session if the following criteria are met:

- The scrip has remained in periodic call auction for at least one quarters
- It is not classified as illiquid as per above scrip criteria

D. Notice to market

For entry and exit of scrips in the call auction mechanism, a notice of two trading days shall be given to the market.

E. Market Information

Lot Size	Same as Continuous Trading Session
Tick Size	Same as Continuous Trading Session

F. Price band

Price bands may be as applicable in normal market session or as notified by surveillance from time to time subject to a maximum price band of 20%.

G. Scrip Eligibility in other markets

Scrips eligible for periodic call auction session shall not be available for trading in continuous session.

H. Trading Session

Each Periodic Call Auction Session of 60 minutes duration will consist of following periods:

Session	**Time**	**Particulars**
Order Entry Period	45 minutes	Order Entry/Modification/Cancellation Allowed Random stoppage between 44th and 45th minute (System Driven) Dissemination of Indicative Price, Cumulative Buy & Sell quantity
Order Matching and Trade Confirmation Period including Buffer period (upto 7 minutes)	15 minutes	**Order matching, trade confirmation** *Order Entry/Modification/Cancellation NOT Allowed* **Buffer Period -** To facilitate transition between two call auction sessions

BSE - PUBLIC

I. Price Determination:

- The equilibrium price shall be the price at which the maximum volume is executable.
- In case more than one price meets the said criteria, the equilibrium price shall be the price at which there is minimum order imbalance quantity (unmatched order quantity). The absolute value of the minimum order imbalance quantity shall be taken into consideration.
- Further, in case more than one price has same minimum order imbalance quantity, the equilibrium price shall be the price closest to the previous day's closing price. In case the previous day's closing price is the mid-value of a pair of prices which are closest to it, then the previous day's closing price itself shall be taken as the equilibrium price.
- In case of corporate actions, previous day's closing price will be the adjusted for the corporate action.

J. Unexecuted Orders:

All unmatched orders at the end of the every Periodic Call Auction Session will not be returned but carried forward to the next session. Further, all unmatched orders at the end of last periodic call auction session shall be returned at close of the market.

K. Index Circuit Filter:

Following action shall be initiated in case of market halt is triggered during Periodic Call Auction Session:

- If triggered during order entry period of any periodic call auction session, that session shall be cancelled and all orders shall be purged.

- If triggered during order matching period of any periodic call auction session, the matching process shall be completed for scrips whose equilibrium price has been discovered or is in process of getting computed. For rest of the scrips, matching process shall be halted.
- Periodic call auction session shall be resumed at the next nearest call auction after the normal market resumes.

L. Risk Management:

Risk management process will be similar to that followed in other call auction sessions.

1.19 Risk Reduction Mode (RRM) functionality

Salient features of this functionality are:

- Trading Members shall be put in RRM on 90% (or as per threshold percentage defined by Clearing Corporation) utilization of the collateral deposited.
- Once in RRM, only fresh orders that reduce open position (square-up orders) are allowed to get back within the permissible limit.
- Trading Members are allowed to reduce open positions by generating 1 order for each end-client against each open position in a security.
- When collateral / trading limit utilization of member exceeds 90%. Following features shall be applicable during Risk Reduction Mode:
- All unexecuted orders shall be cancelled & returned to the member.
- Fresh orders which reduce open position shall be accepted.
- Fresh orders which increase open position shall be checked for margin sufficiency. If sufficient margin is not available, such orders shall be rejected.
- Fresh orders can be placed for immediate or cancel (IOC) only
- All non-margined orders shall not be accepted in Risk Reduction Mode.
- Members shall be moved back to normal risk management mode once collateral utilization is reduced below 85% (or as per threshold percentage defined by Clearing Corporation)

1.20 Securities Lending and Borrowing Mechanism

A. Introduction

Securities' Lending and Borrowing describes the market practice whereby securities are temporarily transferred by one party (the lender) to another (the borrower) via an approved intermediary.

The Borrower is obliged to return them either on demand or at the end of an agreed term and also has an option to early return. Lender may recall securities at any time within normal market settlement cycle.

BSE - PUBLIC

B. Contract Specifications

Eligible Securities	List of SLB Scrips
Trading Hours	9:00 a.m. to 5:00 p.m.
Series	All eligible scrips will have 12 monthly both MCF and MNF contracts available at any time and their respective Rollover Contracts (total duration of SLB contract after taking into roll over contract will not exceed 12 months from date of original contract)
Expiry Day	First Thursday of the month.
Order Type	Borrow / Recall Lend / Early Return/Rollover
Permitted lot size	1
Tick Size	Rs 0.01
Last Trading Day	For any given stock return day, the last day to borrow and lend will be the third business day prior to the stock return day. If the stock return day is a holiday, then the return will take place on the immediately following trading day.
Stock Return Day (SRD)	The day on which the Borrower will return the securities to the Lender.

C. Eligibility Criteria for Scrips in SLB segment

In pursuance of SEBI circulars CIR/MRD/DP/ 18 /2013 dated May 30, 2013, MRD/DoP/SE/Cir-07/2005 dated February 23, 2005 and MRD/DoP/SE/Dep/Cir-14/2007 dated December 20, 2007, the criteria for selecting the stocks eligible for launching SLB contracts in the Derivatives Segment is as below:

In addition to the scrips on which derivatives contracts are available, scrips that fulfil the following criteria shall be considered eligible for SLB:

i. Scrip classified as 'Group I security' as per SEBI circular MRD/DoP/SE/Cir-07/2005 dated February 23, 2005; i.e. The scrips which have been traded for atleast 80% of the days and have an impact cost of less than or equal to 1% over the last six months.

BSE - PUBLIC

AND

ii. The market wide position limit (MWPL) in the stock shall not be less than Rs. 100 crores. For this purpose, the market–wide position limits for SLB transactions shall be 10% of the free-float capital of the company in terms of number of shares

AND

iii. Average monthly trading turnover in the scrip in the Cash Market shall not be less than Rs.100 crores in the previous six months.

Liquid Index ETFs shall be eligible for trading in the SLB segment. For the purposes of this circular, an Index ETF shall be deemed 'liquid' provided the Index ETF has traded on at least 80% of the days over the past 6 months and its impact cost over the past 6 months is less than or equal to 1%.

The Stock exchanges shall review the scrips eligible for SLB on a half-yearly basis. In the event scrip fails to meet the eligibility criteria, no new SLB transaction shall be allowed in the scrip from the next trading day. However, the existing contracts in such scrips shall be allowed to continue till expiry.

D. Trading Time

Session timing for SLB segment of the Exchange is as follows

Activities	Timings
Trade Day (T day) – First Leg	
Securities Lending & Borrowing session	09:15 am – 05:00 pm
6A entries by members (give up)	5:30 pm
7A entries by Custodians (take up)	06:00 pm

E. Trading Holidays -

Same as mentioned in Chapter 2.1

F. Roll-over facility in Securities Lending and Borrowing (SLB) Segment

In Pursuance of SEBI circular CIR/MRD/DP/ 30 /2012 dated November 22, 2012 Exchange introduced Roll-over facility in Securities Lending and Borrowing (SLB) Segment with effect from September 07, 2015.

BSE - PUBLIC

SLB Rollover Features-

Rollover Contracts

- Roll over facility will be available allowed to those Members who have existing borrow or lend position in that contract.
- All eligible scrips will have their respective Rollover Contracts.(total duration of SLB contract after taking into roll over contract will not exceed 12 months from date of original contract).
- Facility for Early Recall and Early Return will be available for Roll over contract for both lend and borrow positions.

G. Corporate Action

- Dividend: In case of the corporate actions for dividend, the dividend amount would be recovered from the borrower and passed on to the lender as per the existing process.
- Stock Split: In case of corporate actions for stock split, the position (quantity of shares) of the borrower and the lender would be adjusted proportionately as per the existing process so that the lender would receive the revised quantity of shares from the borrower.
- In case of other corporate actions such as bonus/merger/ amalgamation/open offer etc. the SLB contracts would be foreclosed on the ex-date and accordingly, the lending fee would be recovered on a pro-rata basis from the lender and returned to the borrower.
- In case of corporate actions for AGM/EGM, facility of following two types of contracts would be provided to the market participants :
    I. Contracts which shall continue to be mandatorily foreclosed in the event of AGM/EGM i.e. The current set of contracts (with an identifier as 'MCF' shall be introduced) which shall be mandatorily foreclosed in the event of all corporate actions including AGM/EGM except Dividend and Stock Split II. Contracts which shall not be foreclosed in the event of AGM/EGM- An additional set of contracts with an identifier as 'MNF' shall be introduced which shall not be foreclosed in the event of AGM/EGM. However, such contracts shall continue to be foreclosed for other corporate actions except dividend and stock split.

2.5 Business Continuity for Interoperable Segments of Stock Exchanges for Equity Segment –

This is with reference to SEBI circular SEBI/HO/MRD/TPD/P/CIR/2024/167 dated 28th November 2024 and BSE circular no. 20241203-37 dated 3rd December 2024 regarding Business Continuity for Interoperable Segments of Stock Exchanges.

Pursuant to the SEBI circular, the Exchanges have been directed to implement a mechanism to ensure business continuity in case of outage of trading venue that may occur during trading hours at either of the Stock Exchanges. Accordingly, in the event of an outage, BSE shall act as an alternative trading venue for NSE and vice versa. Accordingly, Exchanges shall create reserve scrips (i.e. exclusively listed scrips of other Exchange) and facilitate trading in these scrips on the day of outage at the affected trading venue.

2.6 Index based market wide circuit breaker

Exchange has issued notice no. 20130930-37, dated September 30, 2013. Pursuant to SEBI Circular no. CIR/MRD/DP/ 25 /2013 dated September 03, 2013, the Index based market wide circuit breaker triggers of 10%, 15% and 20% will now be calculated on daily basis on the closing value of the S&P BSE Sensex for the next trading day. Additionally, a 15 minutes pre-opening session post each trading halt will be introduced.

The index-based market-wide circuit breaker system will apply at 3 stages of the index movement, either way viz. at 10%, 15% and 20%. These circuit breakers when triggered will bring about a coordinated trading halt in all equity and equity derivative markets nationwide. The market-wide circuit breakers are triggered by movement of either the S & P BSE Sensex or the NSE CNX Nifty, whichever is breached earlier.

The trigger limits, respective halt duration and Pre Opening Session duration is given below:

BSE - PUBLIC

Trigger Limit	Trigger Time	Halt duration	Pre-Opening Session duration post each halt
10 %	Before 1 Pm	45 Minutes	15 Minutes
	At or After 1 PM to 2.30 PM	15 Minutes	15 Minutes
	At or after 2.30 PM	No Halt	-
15 %	Before 1 PM	1 Hour 45 minutes	15 Minutes
	At or after 1 PM before 2 PM	45 Minutes	15 Minutes
	On or after 2 PM	Trading halt for the remainder of the day.	-
20 %	Any time of the day	Trading halt for the remainder of the day.	-

As per the provision of the aforementioned circular, the triggers applicable for the T + day based on the closing value of S & P BSE SENSEX on T day are disseminated on Exchange on the following link: http://www.bseindia.com/indices/MktCktBreaker.aspx

3. Market Parameters

3.1 Price Bands

A. SEBI has prescribed that all Individual scrips will have appropriate price bands **up to** 20% either way except for the scrips having derivatives products on them.

Accordingly, the Exchange, as a Surveillance measure, revises the price bands of the securities having fixed price bands to 10% & 5% as the case may be. The said revision is based on the predetermined objective criteria jointly decided by the Exchanges in consultation with SEBI.

B. Scrips on which derivative products are available have dynamic price bands wherein the initial threshold of 10% on the previous closing price is applied.

The dynamic price bands are relaxed in increment of 5% on the same side in which the stock price is moving, provided there are minimum 25 trades and 5 different UCCs on both sides at trigger % or above. The trigger limit for such relaxations are 9.90%, 14.90% and so on. For e.g. if the last trade occurs at 9.90% or more of the base price (i.e. previous close price) with atleast 25 trades and 5 different UCC on both the side, the dynamic price band shall be relaxed to 15%. Subsequently, if the last trade occurs at 14.90% or more with 25 trades and 5 different UCCs on both sides, then the same shall be relaxed to 20%.

Further, pursuant to Para 4 (ii) of Annexure of SEBI Press Release No.18/2020 dated March 20, 2020 and Press Release No. 59/2020 dated November 25, 2020, on Regulatory measures taken by SEBI in view of ongoing market volatility, in addition to the existing requirements, the dynamic price bands are flexed only after a cooling-off period of 15 minutes from the time of meeting the existing criteria specified by stock exchanges for flexing.

Notice Links are as follows –
Master Circular – Surveillance (Equity Segment)

C. Securities listing after Initial Public Offering:

As per Exchange Notice No. 20120123-26, dated January 23, 2012, & SEBI Circular No.: CIR/MRD/DP/02/2012, dated January 20, 2012, regarding Call Auction in Pre Open Session & Trade Controls in normal trading session for IPO and other categories of scrips is as under:

For issue size up to Rs. 250 Cr., trading shall take place in the Trade for Trade segment for the first 10 days with applicable price bands, wherein for the first day:

BSE - PUBLIC

- No price band during pre-open session through call auction mechanism • The price band in the normal trading session shall be 5% of the equilibrium price / issue price.

For issue size greater than Rs. 250 Cr., the applicable price bands for the first day shall be:

- No price band during pre-open session through call auction mechanism
- The price band in the normal trading session shall be 20% of the equilibrium price / issue price.

D. Re-listed Securities In following cases,

- Merger, demerger, amalgamation, capital reduction/consolidation, scheme of arrangement, in terms of the Companies Act and/or as sanctioned by the Courts, in cases of rehabilitation packages approved by the Board of Industrial and Financial Reconstruction under Sick Industrial Companies Act and in cases of Corporate Debt Restructuring (CDR) packages by the CDR Cell of the RBI.
- Securities that are being admitted to trading from another exchange by way of direct listing/MOU/securities admitted for trading under permitted category,
- Where suspension of trading is being revoked after more than one year.

Trading shall take place in the Trade for Trade segment for the first 10 days with applicable price bands, wherein for the first day:

- No price band during pre-open session through call auction mechanism
- The price band in the normal trading session shall be 5% of the equilibrium price.

For scrips under point no. C & D, Exchange imposes dynamic price bands during the SPOS session which are relaxed based on the order book in coordination with the other Exchanges as applicable.

For further clarification on price bands please refer to following link and relevant circulars –

https://www.bseindia.com/static/markets/equity/EQReports/sur_Surveillance.html

3.1.3 Auction Market

Price band applicable for auction market is 20 %.

3.1.4 Other Securities

Price band is as decided by Surveillance department from time to time.

4. Compliances

4.1 Trade Annulment

Policy for Annulment of trades undertaken on the Exchange

In line with SEBI Circular no. CIR/MRD/DP/15/2015 dated July 16, 2015 following provisions are stated regarding Policy for annulment of trades undertaken on stock exchanges.

A. SEBI in Para No. 2.1 of its circular prescribes that;

> "2.1. Examination of trade(s) for annulment may be taken up either suomoto by stock exchange or upon receipt of request from a stock broker. Stock exchanges shall define suitable criteria so as to discourage frivolous trade annulment requests from the stock brokers."

B. In view of the aforementioned and in order to ensure that there are no frivolous requests being referred to the Exchange, the framework of processing the trade annulment requests from trading members for trades executed on the exchange trading platform is being laid down in this circular.

C. **However, trading members are required to take note of the following:**

i. Appropriate risk management checks and due precautions implemented by the trading members at their end to mitigate the need for making such requests.

ii. Only in exceptional situations requests for trade annulment shall be made by the trading members.

iii. Trade annulment request once submitted shall not be allowed to recall / cancel and shall be considered as valid trade annulment request for the purposes of the framework suggested herein.

iv. All trade related charges including statutory charges arising out of the trade/s being requested for annulment shall remain unchanged regardless of final outcome of trade annulment requests.

v. Each submitted trade annulment request shall be charged with 5 % of the Transaction value of trade/s being requested for annulment or Rs. 1 Lakh whichever higher. The upper cap on such allocation fee shall be Rs. 10 Lakhs. Fees may be reviewed from time to time to discourage frequent / frivolous requests.

vi. Requests submitted to the Exchange shall not be deemed to surety of annulment of trades by the Exchange.

BSE - PUBLIC

D. **Trade Annulment request - Eligibility Criteria for submission**

The trade/s for which annulment is requested shall be called as "**Trade/s in question**" hereafter only for brevity and shall have to fulfill all the conditions stated below for the Exchange to accept it for further processing;

i. Value of such trade/s in question is atleast Rs. 20 Lac

Where a trade refers to a single transaction of Rs. 20 Lacs & above or series of transactions emanating out of a single order with aggregate value of Rs. 20 Lac and above.

And

ii. It shall be the first request for annulment by the trading members during the calendar Quarter in the segment

And

iii. Trade/s Annulment request submitted within 30 minutes from the occurrence of the trade.

And

iv. Trade/s in question are of securities with applicable price band of 10 % and above

And

v. Trade/s in question should have been executed during continuous session. In other words trades executed as a part of following session shall not be accepted;

- Pre- Open Session
- Special pre-open Session
- Periodic Call Auction Session
- Post-closing Session

And

vi. Trade/s in question are not executed in Block deal window

And

vii. Trade/s in question are not executed in 4 Lakh (QFI series) & 6 lakhs (Institutional series)

And

viii. Trade/s in question are not arising out PAN based wash trades.

BSE - PUBLIC

E. Processing of Trade Annulment requests made by the Trading members

While examining such requests and the potential effect of such annulment on trades of other stock brokers/investors across the market, including trades that may have occurred as an outcome of trade(s) under question, BSE shall decide to reject, accept such request and may carry out price reset for such trade/s.

Trade Annulment requests accepted based on the conditions specified in Para 4, shall be accepted for further processing & examination w.r.t. following conditions for further decision. Any request which do not qualify the below criteria shall be rejected. In case where the prescribed criteria is found to be meeting, the Exchange shall undertake price reset for such trade/s in question:

i. Minimum 20 trades in the security excluding the trade/s in question.

And

ii. Variation of the trade/s in question vis-à-vis its immediate preceding trade is at least equivalent to the applicable price band of the respective security (In case of multiple trades emanating out of single orders, the variation shall be calculated between the first trade and immediate preceding trade)

For example, a security having applicable price band as "20 %", then the variation of trade in question vis-à-vis its immediate preceding trade should be at least 20 % whereas for security with applicable price band of 10 %, the said variation should be at least 10%.

And

iii. Counterparty/ies agrees for price reset. For the cases, a trade annulment request is relating to multiple trades arising out of single orders with multiple counterparties, only those trades where the counterparty agrees for trade annulment / price rest shall be considered for the price reset.

Counterparties shall confirm the acceptance or rejection in writing to the Exchange within 30 minutes from the intimation with reasons thereof. In case of no confirmation within the stipulated time, it shall be automatically construed as rejection by the Counterparty.

F. The Exchange shall expeditiously, not later than start of next trading day, examine and decide upon such requests. While examining such requests, the Exchange shall consider the potential effect of such annulment on trades across market.

BSE - PUBLIC

G. The Exchanges shall undertake annulment or price reset only in exceptional cases in the interest of the investors, market integrity, and maintaining sanctity of price discovery mechanism.

H. As stated in the para 2.6 of the SEBI Circular, the Exchange based on impact of trade/s being requested for annulment on trades across the market, including trades that resulted as an outcome of trade(s) under consideration shall undertake "Price Reset" whereby the prices of trade/s in question shall be adjusted with an appropriate price.

I. The adjusted price under the price reset mechanism shall be the volume weighted average price of all trades executed during the trading day (excluding the Trade/s in question in the security).

J. In line with para no. 2.8 of SEBI Circular, the Exchange shall coordinate with the other exchanges to take appropriate inputs at the time of arriving at decision on the trade annulment request received on its platform.

K. Exchange shall make due arrangements to publish the details of the trade annulment requests as per the para no. 2.4 & 2.9 of SEBI circular.

L. A mechanism to request a review of the decision taken by the Exchange shall be provided to the trading members and the trading member/s shall submit such request to the Exchange before the payout deadline of the trades.

A detailed procedure along with the applicable charges for the said review shall be published in due course.

M. As prescribed in SEBI Circular para no. 4, a framework for penalty for entering erroneous orders shall be published in due course. This shall be in addition to all the processing charges mentioned in this circular so far.

N. It may be noted that Exchange, can suo moto initiate annulment of trade/s in the events having market wide impact including willful misrepresentation or manipulation or fraud, trade(s) may be annulled as provided in the Rules, Bye Laws and Regulations of Exchange.

Further, the Exchange has enabled an online facility for trading members to submit their request for trade annulment in RTRMS-ZT terminal.

BSE - PUBLIC

Features of this facility are as follows:

- Trade annulment request for each segment can be submitted electronically using a separate menu option provided in RTRMS-ZT system
- Request for trade annulment can be made for same day trades only. Accordingly, trading member can view and select the trade for which the annulment request is required to be submitted to the Exchange.
- Request submitted by a member shall also be sent to the counter-party member of that trade. A new user interface called as "View Trade Annulment Request" shall be provided as a separate menu option for each segment in RTRMS-ZT system to view the request(s) received.
- Counter-party member can update their response as Agree/Disagree for every request received before end of cut-off time of the online facility.
- Cut-off Timings shall be as follows - ○ Equity segment: 5:00 pm
- A unique request ID shall be generated for every request submitted.
- An automated email shall be sent to the member on submission of trade annulment request. Similar email shall also be sent to the counter-party member, based on which the member can view the request received in RTRMS-ZT system. This email shall be sent to the email ID of compliance officer of the concerned member (as available in Exchange records).

Mechanism for seeking review of the Exchange's decision on Trade Annulment/Cancellation.

1. Submission of Review Request:
    a. The trading member who had submitted the trade annulment request online in RTRMS-ZT system and whose request was rejected can submit the review request at the designated email id bse.tar@bseindia.com.
    b. The review request shall be submitted with following particulars:
        - Trade Annulment Unique Request ID (as received from RTRMS-ZT system)
        - Member ID
        - Reasons for Review Request
    c. The cut-off timings for submission of review request shall be as follows -
        - Equity segment: T +1 Day - 6:00 pm
    d. The Exchange shall inform the counterparty about the receipt of a trade annulment review request.

BSE - PUBLIC

2. Processing of Review Request:

   a. The Exchange shall refer the review request along with relevant particulars to the Exchange's Trading & Surveillance Oversight Committee as constituted under Regulation 29(1) of the Securities Contracts (Regulation) (Stock Exchanges and Clearing Corporations) Regulations, 2012.

   b. The pay-out with respect to both securities and funds as may be applicable relating to the settlement of such trades shall be withheld till such review is completed.

   c. Trading & Surveillance Oversight Committee shall examine the request and provide its recommendations to the Exchange within 30 days of the receipt of the review request.

   d. On receipt of the recommendation from the Trading & Surveillance Oversight Committee, the Exchange would convey the decision as soon as possible but not later than two working days.

3. The decision taken by the Trading & Surveillance Oversight Committee shall be final and binding on all parties and pay-out shall be released accordingly.

4. The Exchange shall disseminate details of Trade Annulment Review Request and committee's decision thereof on its website www.bseindia.com under Markets/End-ofDay Reports/.

4.2 Proprietary Trading

As directed by SEBI, it is hereby notified that Trading members are required to specify the nature of the order in terms of the order being placed is a Client order or it is on their OWN account at the time of order entry on the trading system.

In accordance with SEBI circular no. SEBI/MRD/SE/Cir-32/2003/27/08 dated August 27, 2003, Exchange is providing the facility of placing of orders on 'proprietary account' through trading terminals.

Accordingly, it has been decided that

- Facility of placing orders on own account through trading terminals is extended only at one location of the members as specified / required by the members
- Trading terminals located at places other than the above location shall have a facility to place orders only for and on behalf of a client by entering client code details as required / specified by the Exchange / SEBI.
- In case any member requires the facility of using own account through trading terminals from more than one location, such member shall be required to submit an undertaking to the stock exchange stating the reason for using the own account at multiple locations and the Exchange may, on case to case basis after due diligence, consider extending the facility of allowing use of own account from more than one location.

Process of application for Proprietary Trading

Exchange has provided facility on BSE Electronic Filing System (BEFS) portal to handle proprietary account trading applications electronically. The process has been listed as follows:

- Trading member shall be required to send a request for grant of permission for proprietary trading on a particular terminal id via letter on BEFS portal for :

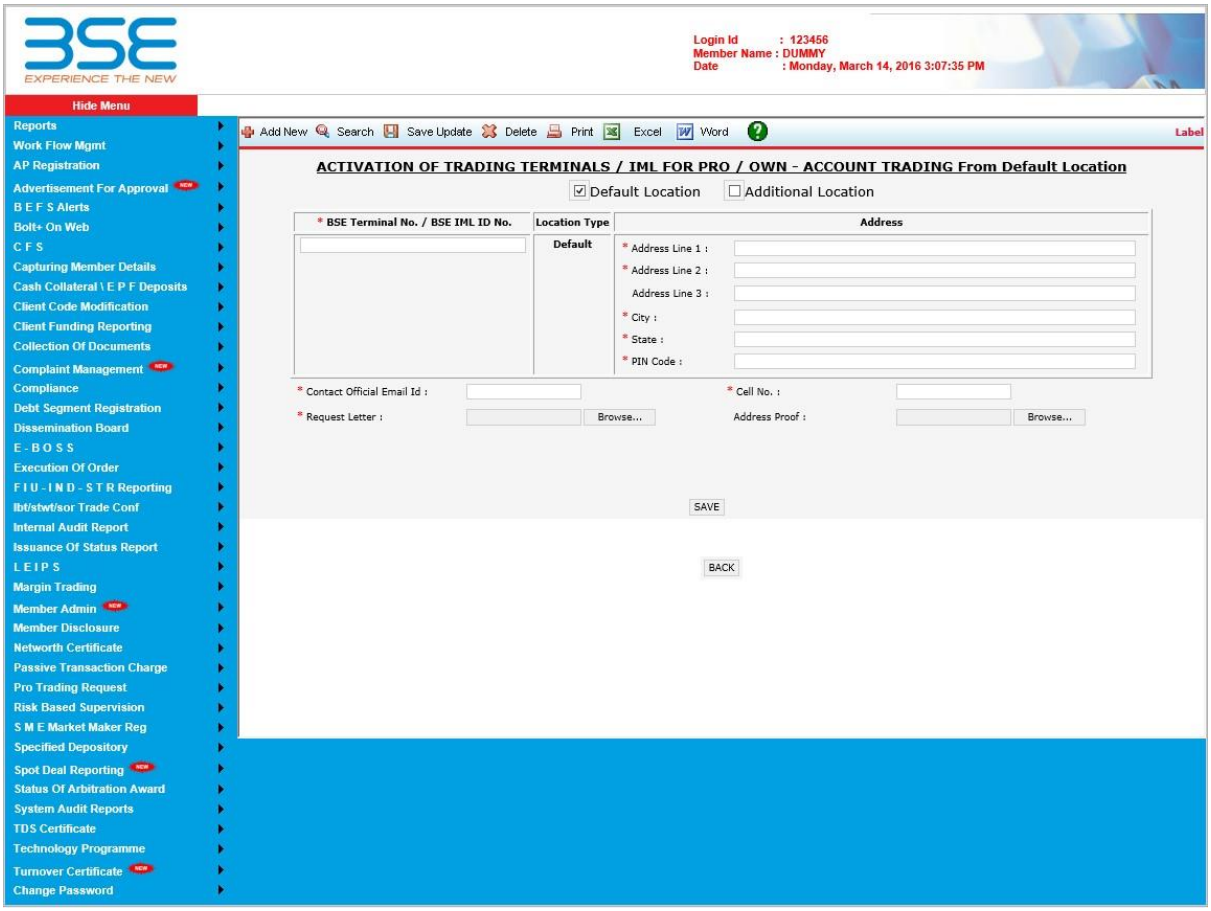

- The address of the terminal id will be verified against the office addresses of the members registered with the Exchange. In case the address is not registered the member will be intimated via BEFS portal to share a copy of the address proof.
- Based on the trading profile of trading member, adequacy of Base Minimum Capital requirements for trading member will also be verified. In case of a shortfall, trading member will be required to replenish the same.
- In case the requested trading terminal is at the default location of trading member, the approval will be sent via auto-generated email from BEFS portal. However, if the requested trading terminal is from an additional location, an approval letter will be made available to trading member on Extranet.

BSE - PUBLIC

Further, in the event of mismatch in location of the pro-order vis-à-vis approved location a file containing mismatch records shall be made available on a daily basis on member's extranet portal to initiate corrective measures.

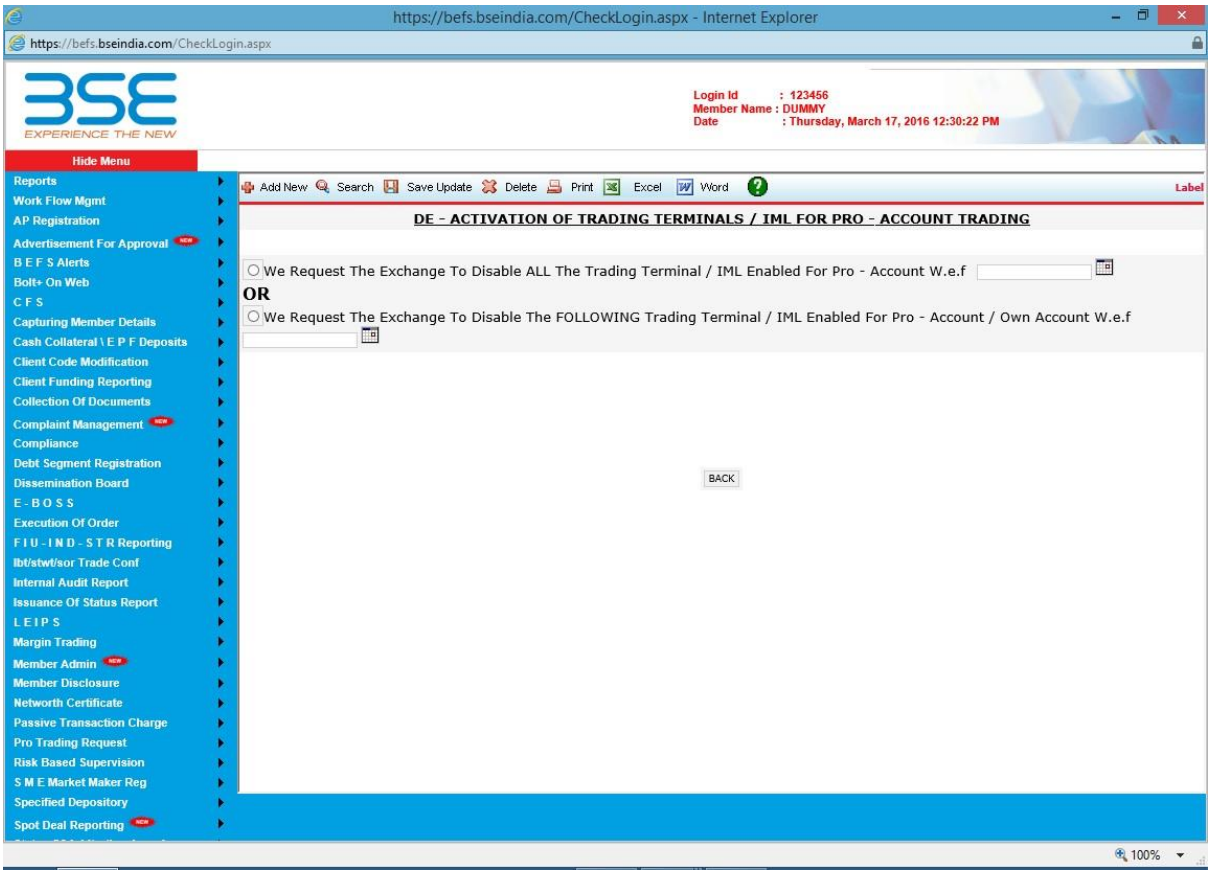

The file name for the same shall be PRO_MM_ddmmyyyy.txt. Format provided in annexure III.

4.3 Trading Through Other Trading Member

As per SEBI master circular for stock brokers dated May 17,2023 -

- A Stock broker of an exchange cannot deal with brokers of the same exchange either for proprietary trading or for trading on behalf of clients, except with the prior permission of the Exchange. The stock exchanges while giving such permission, shall consider the reasons stated by the brokers for dealing with brokers of the same exchange and after carrying out due diligence allow such brokers to deal with only one stock broker of the same exchange.

- A stock broker of an exchange can deal with only one broker of another exchange for proprietary trading after intimating the names of such stock broker to his parent stock exchange.

4.4 Debarred Client

In order to facilitate effective compliance of the various SEBI orders for debarred entities by the trading members of the Exchange, the Exchange has implemented the initiatives wherein the orders entered for debarred entities will be rejected as an invalid order on the Trading System and the trading member will receive a message as follows -

Error code: 210

Error Text: Client is debarred for member

Further, the trading members are advised to take note of the following:

- The trading members are advised to exercise extra caution and due-diligence at their end while executing trades on behalf of their debarred clients. **Relevant Notices:**

4.5 Self - Trade Prevention Check (STPC) Functionality

With an objective to bring in more transparency, BSE, as a proactive measure introduced a functionality called the Self Trade Prevention Check, to prevent self-trades at the time of order matching at the UCC level in first phase, which was introduced in the Equity Segment on March 16, 2015

Self-trade prevention check is a feature that prevents matching between a buy & a sell order entered by single broker or multiple brokers

- In the same order book
- For the same client code - Originating from same or different terminals of the broker
- For different client codes having same PAN - Originating from trading terminals of different Brokers

Self-trade Prevention Check for Equity segment - FAQs

The Exchange later extended the same functionality on PAN level on October 12, 2015 in the Equity segment.

Reversal Trade Prevention Check (RTPC)–in Equity Segment The RTPC functionality in Equity segment shall work in line with other segments wherein the second leg of a reversal trade shall be automatically cancelled at the time of order matching in an on-line real time manner in the trading system thereby eliminating the potential cases of trade reversals taking place on the trading platform. RTPC in Equity Segment is applicable to securities exclusively available for trading on BSE trading platform.

4.7 Order to Trade Ratio –

BSE has always made efforts to enhance its trading system and provide fair and equitable market access to all trading members. This enables the Exchange to provide all market participants with the fastest trading experience in the world with a speed of 6 microseconds. In this direction, Exchange has implemented changes like charges for high order to trade ratio.

BSE - PUBLIC

The purpose of implementing this measure is to control potential cases of order spoofing, order stuffing, algo misfire etc. and ensure orders are closer to market prices so that the depth available for trading near the market price improves for investors. Various International Stock Exchanges have similar framework for charging in case a member's algo places very large number of orders with very few trades.

Order flow rate in equity segment –

All Session IDs of all members will have the same order per second value irrespective of their monthly OTR or Turnover.

All High Frequency (Non-Persistent) sessions IDs will have an Orders Per Second (OPS) of 1000 messages per 1000 milliseconds. Further, there shall be no change in the order flow rate for the persistent (LF) users

Alternative No.	Description	No. of messages	Monitoring Time Interval	Throughput (Messages per second)
I	HF or Non-Persistent Session ID	1000	1000 milliseconds	1000
II	LF or Persistent Session ID	500	1000 milliseconds	1000

Thus, to summarize there will be only 2 alternative available which will be as follows: -

In addition to above, each member can have maximum 5 session IDs which will be assigned an OPS of 2000 messages per second in each segment. These sessions can be HF or LF or combination of both. The member must inform to exchange about the sessions which require OPS of 2000 messages. Any member who would like to inform their Session IDs, may send their request to the Trading Operations team at the email ID - user.trdops@bseindia.com. The subject of the mail should be "2000 OPS Session ID List".

Charges for high Order to Trade ratio –

The order to trade ratio for each stock of equity and contract of equity derivatives will be calculated individually. If the order to trade ratio in any stock /contract exceeds 500:1 then an additional charge of Rs. 0.01 will be charged per 100 orders in that stock /contract.

The said charges levied in each stock /contract will be aggregated at member level daily and shall be collected monthly, after reckoning all orders and trades of the member

BSE - PUBLIC

Trading members are requested to note the details of order to trade ratio (OTR) framework as follows –

All orders placed in the Equity and Equity derivatives segment shall be brought under this order to trade framework. For the purpose of calculation of Daily Order-to-Trade ratio all the orders, i.e., order entry, order modifications and order cancellations will be considered.

In Equity Segment, securities which are part of SME, ETF and securities in which market making is done shall be excluded for computation of OTR. Orders placed in Odd Lot Market, Auction Market, Block Trading Session, Pre-open session, Post Close Session, Periodic Call Action session and Call auction in Pre-open session for Initial Public Offering (IPO) and other category of Scrip's shall also be excluded for the computation of OTR.

The above charges will be exempted for 100000 orders in each stock /contract for each day.

5.2 RTRMS – Zero Terminal (ZT)

The ZT for the Equity segment is an enhanced version of the Admin terminal providing greater flexibility and control to the Admin user of a trading member firm to perform various admin and risk management functions. ZT has been integrated as a module within Real Time Risk Management System (RTRMS) which is already used by trading members. Being web based, ZT module provides ease of access to all trading members and can be accessed with authorized login credentials. Trading members can use their existing login credentials of RTRMS to access the ZT module. This will facilitate the trading member to simultaneously control his order level and post-trade level risk management activities through a single system.

The functionalities being offered as part of ZT module for Equity segment are as follows:

A. View All Trades

- Trading member can view all the trades performed by all his trading users (both API and TWS users).
- 'View all Trades (Equity)' screen, trading member shall be able to view all trades performed by all his trading users.
- The trades done through both API based terminal and exchange offered TWS terminal shall be Available.

BSE - PUBLIC

- Rectified trades shall also be updated in this screen.
- Following details of trades shall be available as part of the 'List Trades' view such as :

Member ID, Location ID, User Id, Series Code, Buy/Sell, Qty, Rate, Trade ID, Order ID, Client Id, Client Type, Trade Time, Order Time.

Trading member can filter the trades on the basis following parameters such as :

- Location Id
- Series Code
- Trade Id
- User Id
- Order Id
- Client Id
- Client Type
- Settlement Cycle

B. Cancel All Pending Orders

- Trading member can cancel all the pending orders for all his trading users (both API and TWS users).
- Trading member shall have the facility to perform mass cancellation of all pending orders.
- Cancellation of all pending Orders is possible either for single Trader ID by selecting 'Cancel for selected Users' or for all Trader IDs by using option 'Cancel for all users'.
- On mass cancellation, pending orders for all the users (Traders) under the member shall be cancelled.

C. View All Pending Orders

- Trading member can view all pending orders of all his trading users including both API and TWS users.
- Trading member can filter pending orders based on following options such as:
  - Scrip Code
  - B/S
  - Client Id
  - Order Id
  - Trader Id
- To view pending order trading member to click in 'Refresh' tab available in screen and then click on view.
- Once the orders are available Trading member can filter pending orders based on various filters such as Scrip Code, Buy/Sell, Client ID, Order ID, Trader ID to view selected pending orders.
- In this option, orders placed using LF user ids shall be available for view. Orders placed using HF user ids will not be displayed.

BSE - PUBLIC

D. Features of 'Single Order Limits' for Equity Segment in RTRMS - ZT system

- 'Single Order Limits' screen for Equity segment allows the trading member to set the single order value limit and single order quantity limit for each trading user.
- Single order value and single order quantity limits can be set separately for each Scrip Group. E.g. trading member can set separate single order limits for user 1 for scrips belonging to each group, viz. Group 'A', Group 'B', Group 'T', etc.
- Any addition/updates in the single order limits done by the trading member shall be effective from the next business day.
- Apart from adding and editing the single order limits for each group, trading member can also perform the following actions:
    - 'ApplyToAllGroups' – Apply the limit of one particular scrip group for a selected user to all the other scrip groups for that user.
    - 'ApplyToAllUsers' – Apply the limits of one particular user to all other users for the selected scrip group.
    - CopyGroupLevelLimits' – Copy the limits of multiple or all scrip groups from one user to multiple users.

Note - As per SEBI Master Circular SEBI/HO/MRD2/MRD2_DCAP/P/CIR/2021/0000000591 dated July 05,2021 any single order value limit is Rs. 10 crore per for execution in the normal market.

E. Features of 'Single Order Cancellation' for Equity Segment in RTRMS - ZT system

- 'Single Order Cancellation' feature shall allow the trading member to cancel selected pending order from 'View Pending Orders' screen.
- For cancelling a single order, trading member should use the 'Cancel' button provided on 'View Pending Orders' screen.
- Filters (client id, scrip code, etc.) have been provided on the 'View Pending Orders' screen for selecting any particular order for cancellation.
- Trading members shall only be allowed to cancel only single order at one time.
- Trading member can view Pending orders & can select individual orders from pending order screen and click on 'cancel' to delete particular order.

F. Features of segment wise Trading Limits through RTRMS – ZT system

- Members shall be able to set & update trading limits for each of his user ids' using option "All Trade Limit"
- Various types of trading limits that shall be available such as Gross Buy Limit, Gross Sell Limit, Net Value , Net Buy Qty, Net Sell Qty , Group Limit & Net Qty Limit
- Limit set from this option shall be applicable for order placed through BOLT Pro TWS terminal for more efficient risk management operations at the members' end.

BSE - PUBLIC

- Orders submitted through BOLT Pro TWS shall be validated against limits set up for a user id as mentioned above.

G. 'User Role' Assignment

User Role Assignment for functionalities in ZT - Using option ***Users->View-> Select User-> Assign Rights,*** admin user of RTRMS system can assign rights to view reports / functionalities to its RTRMS 'sub users' created by admin user.

Trading member can refer to the following matrix for features that shall be available RTRMS-ZT.

Features	**Equity**
View All Trades	Available Intra day
View All Pending Orders + Single Order cancellation	Available Intra day
Cancel pending orders for 'Selected User IDs' and 'All User IDs'	Applicable Intra day
Single Order Limit (Quantity & Value limit)	Applicable Intra day
All Trade Limit	Applicable Intra day
User Role Assignment	Applicable Intra day

H. Facility to Set Single Order Limits for BSE Exclusive Securities in RTRMS-ZT system

To facilitate this, BSE exclusive securities shall be part of a separate sub-group which shall be displayed in "Single Order Limits (Equity)" under Group Name field while other securities shall continue to be part of the existing security group.

H. Reset Trader/ Session Password

Using this option, member can reset password of trader ID and session ID provided by Exchange used to connect Exchange Trading system

I. Facility to Process for Trade Annulment Review Request using RTRMS -ZT

As required by SEBI circular no. CIR/MRD/DP/15/2015 dated July 16, 2015 exchange introduced mechanism for seeking review of the Exchange's decision on trade annulment.

Trade Annulment Review request facility is available on RTRMS-ZT Application.

1. Submission of Review Request

1.1. The trading member who had submitted the trade annulment request online in RTRMS-ZT system and whose request was rejected can submit the review request at the designated email id bse.tar@bseindia.com.

1.2. The review request shall be submitted with following particulars –

i Trade Annulment Unique Request ID (as received from RTRMS-ZT system)

BSE - PUBLIC

ii Member ID

iii Reasons for Review Request

1.3. The cut-off timings for submission of review request shall be as follows -

iv Equity segment: T+1 Day - 6:00 pm

1.4. The Exchange shall inform the counterparty about the receipt of a trade annulment review request.

2. Processing of Review Request

2.1. The Exchange shall refer the review request along with relevant particulars to the Exchange's Trading & Surveillance Oversight Committee as constituted under Regulation 29(1) of the Securities Contracts (Regulation) (Stock Exchanges and Clearing Corporations) Regulations, 2012.

2.2. The pay-out with respect to both securities and funds as may be applicable relating to the settlement of such trades shall be withheld till such review is completed.

2.3. Trading & Surveillance Oversight Committee shall examine the request and provide its recommendations to the Exchange within 30 days of the receipt of the review request.

2.4. On receipt of the recommendation from the Trading & Surveillance Oversight Committee, the Exchange would convey the decision as soon as possible but not later than two working days.

5.6 Extranet facility

Exchange provides a web based facility, viz. EXTRANET to the members to access common and member specific data. This facility also enables members to upload / submit relevant member specific data as per Exchange requirements.

The salient features of the Extranet System are as below:

- Web based download and upload system
- Accessible through Internet and Intranet (i.e., leased lines)
- Availability of 30 days history file downloads

The URL for accessing the Extranet System:

Internet URL	https://member.bseindia.com
Leased Line URL	https://memberll.bseindia.com

In addition to the Extranet System, BSE is also providing an Auto download application called **"Extranet Plus"**. This application needs to be installed at the member's end. The member has to login to the application only once and the files will be downloaded to the local disk automatically as and when BSE provides the files for download. Extranet Plus application is currently accessible only on the private network (LAN, WAN, VSAT) and not on internet.

In addition to the Extranet System, Members can view availability status of files / reports pertaining to Trading and Clearing & Settlement on Member Extranet Portal under File Status Dashboard.

5.7. Master Data Files

Exchange provides various files for trading /clearing members for their front/back office. The file formats are attached as Part III annexure.

The end of day master files are available to members on Extranet as well as on Exchange website link - **MEMBERS HELP DESK (BSEINDIA.COM)**

Further members may refer to link for various file formats including test environment file formats https://www.bseindia.com/nta.aspx

BSE - PUBLIC

6. Support

6.1 Help Desk

In an endeavor to enhance trading experience and to improve member services, Exchange supports its members through a dedicated Help Desk.

Members can call at Help Desk on tel. no. 022- 69158500 ,022-45720400 and 022-45720600 (hunting line) between 8:00 am to 7:30 pm on all trading days for their queries. Members may alternatively write to Help Desk on email Id: bsehelp@bseindia.com for their queries.

Help Desk supports all queries including the following areas:

1. Trading System
2. Connectivity related
3. Clearing and Settlement
4. Membership related
5. Various Product related
6. General Queries

6.2 Trading Operations Desk

This desk caters to Member requirements pertaining to User Id management for various Exchange systems.

Members can call at Trading Operations Desk on tel. no. 022 2272 8125 / 8005 between 8:00 am to 7:00 pm on all trading days for their queries or they may alternatively write to Trading Operations Desk on email Id: user.trdops@bseindia.com for their queries.

6.2.1 Activation of Trading User IDs

Process Flow for User ids creation

- Trading Operations receives BOLTTWS/ETI/BOW-ID creation request for equity from Member.
- If the member request is as per format, the request is authorized and acted upon post verification.
- If the member request is not as per format, the member is communicated about the same and is asked to resend the request as per requisition format.

If the member's application for creation of User Id is not as per the requisition form, it is liable for rejection (for the indicative reasons mentioned below)

BSE - PUBLIC

Indicative reasons for Rejection of Activation form

a. Member's stamp is not properly affixed
b. Tick not present on 3rd point of undertaking.
c. Date on last page of Undertaking should be same as date mentioned on Board Resolution copy
d. Undertaking should /Franking/e- Stamp paper (Rs.500 Stamp paper)
e. A vendor name is required in undertaking.
f. Activation form should be on company letter head
g. Absence of required documents like Undertaking or bord resolution.

6.2.2 Deactivation of Trading User IDs

Process Flow for deletion of User ids in all segments

- Member will require to send an application form for deactivation of User Id in a soft copy on an email to (user.trdops@bseindia.com)
- If the member's request is not as per the requisition format, it is rejected, and a pro-active call is made to the member for the same. Further, member is requested to resend with necessary changes to Trading Ops team.
- If the received request is authorized by anyone other than director/proprietor but above Manager Level, then Trading Ops team verifies the authenticity of the person authorizing the request with the firm's director/proprietor.

For Activation and Deactivation trading members put request through BEFS please refer to notice link Submission of Trader ID application through BSE Electronic Filing System (BEFS).

6.3 Contingency Pool Operations

Exchange provides a contingency pool area for trading facility from its premises at P. J. Towers, Mumbai. Members can avail of this facility in the event of a contingency where trading member is not able to trade from own office due to technical issues or otherwise. In such cases, trading member can send the request in writing to the Exchange seeking permission to trade from Exchange's premises. Once Exchange receives such request from the trading member, it verifies the details and permits the representative of the trading member to use the trading facility in the contingency pool area in its premises. The facility is available on a first come first serve basis. Trading member is granted permission to use trading facility in the contingency pool for a particular day only.

For any query about Contingency Pool access, members can contact Help Desk on tel. no. 022-69158500, 022022-45720400 and 022-45720600 or email at bsehelp@bseindia.com

6.4 Facility to provide custodial participant code (CP code) when placing orders

As per circular number 20200911-47 following was made live from December 01, 2020

- Trading members shall be able to provide custodial participant code (CP code) when placing orders for those clients whose trades are settled by a Custodian and not by the trading member and its clearing member.
- Members can provide a CP code along with client code at the time of order entry. It will be an optional field.
- Such CP code can either be a specific CP code as assigned to the client by a Clearing Corporation or a generic code “INST”.
- This facility shall be available for orders submitted with client type CLIENT only. It shall not be available for client type OWN.
- A Participant Master file consisting of all valid CP codes assigned by the Clearing Corporations shall be made available to members on daily basis which can be used in front-end trading applications.
- At the order level, members shall be able to modify CP code for fully pending orders only through the existing order modification process. It will not be allowed for partially traded orders.
- On post trade basis, members shall be able to modify CP code in trade using the facility provided by the Clearing Corporation where the trading member and its clearing member are registered for settlement.
- Settlement of CP code transactions shall take place as per the process defined by the Clearing Corporation where the trading member and its clearing member are registered.
- Trade file provided by the Exchange to its trading members (TMs) shall undergo changes to incorporate CP code related fields.

Trading members are requested to note as informed via circular number 20201127-11 Participant Master file consisting of all valid CP codes assigned by the Clearing Corporations is made available for members to download at end-of-day of each trading day, at the following locations –
